Usability Test – beste.Whiteboard

Task 1

Imagine you are in a kebab shop and want to order a kebab. Now you have to decide whether you would rather have a vegetarian kebab or one with meat.

Create a flow chart that shows this decision-making process. Start with "Choose kebab" and end with "Place order". If possible, do not use more than 5 elements.

Task 2

Export your diagram from task 1 and reload the page afterwards.

Task 3

Make a rough sketch of the room. Take 5 - 10 minutes to do this.
You are free to export your sketch at this point as well.

Thank you for your participation!
